

ThreatLens test document - NOT malware

This file exists to exercise the detector, like the EICAR test file.

It contains strings the Suspicious_APIS YARA rule matches:

VirtualAlloc WriteProcessMemory CreateRemoteThread

LoadLibraryA WinExec ShellExecuteA

and network indicators for the risk scorer:

<http://malware-c2.example.net/stage2.bin> 185.220.101.47

Expected verdict: Suspicious, with a medium-severity alert.
